DAY 4

Load bikes and head for the mountain kingdom of Lesotho. We clear the border post and arrive at Mhales Hoek after lunch. Offload bikes and do an awesome ride into Malealea Lodge. We are now in the heart of Africa riding territory with the lodge being at the base of the infamous "Slide your ass" pass

DAY 5

Early morning wake up call and the group heads up to the challenging Ribaneng gorge to Ramabanta Lodge. This 74km section is one of the favourites for the Roof of Africa riders. After lunch we tackle the 23km baboons pass.

DAY 6

This is by far the biggest day of the tour with us tackling the "slide your ass" pass. It is a day of unknowns and depending on the group's motivation and ability, this will determine who at the end of the day is the winner, slide your ass or you... Through the history of the Roof of Africa this day has always brought an element of fear and trepidation into each of the competitors
